ABOUT ME

With 1.5 years of dedicated experience as a frontend developer, I am deeply committed to crafting captivating digital experiences. My journey in this dynamic field has honed my skills in HTML, CSS, JavaScript, and various frontend frameworks. I place great emphasis on attention to detail and ensuring user satisfaction in every project I undertake. Continuously seeking growth, I remain proactive in staying abreast of emerging trends and technologies. I approach each task with enthusiasm and a strong dedication to delivering high-quality results.

My goal is to contribute effectively to innovative endeavors that redefine digital engagement.

EDUCATION

MAHARSHI DAYANAND UNIVERSITY

Bachelor's Degree in Computer Application

SKILLS

- Debugging
- Testing
- CSS Preprocessing
- Command Line

TECHNOLOGY

- HTML
- CSS
- BOOTSTRAP
- TAILWIND
- JAVASCRIPT
- TYPESCRIPT
- REACT JS
- NEXT JS
- REACT NATIVE

TOOLS

- Visual studio code
- Git
- Postman
- FileZilla

PROFESSIONAL EXPERIENCE

Frontend Developer

KMA Technoware | 2024 - Present

- Having completed a six-month internship with KMA Technoware, I am deeply familiar with the company's culture, values, and operations. During my internship, I had the privilege of working on diverse projects and collaborating with talented colleagues, which greatly enhanced my skills and knowledge in the field.
- Developed and maintained responsive web applications using HTML, CSS, and JavaScript.
- Contributed to the planning and design of user interfaces, focusing on usability and accessibility.

PROJECTS

WOCO

- Managed property development project, emphasizing creation and sale of newly developed residential or commercial spaces.
- Oversaw location selection, design, construction, pricing, marketing, and sales strategy to meet market demand and ensure profitability.
- Spearheaded property development project, managing both administrative tasks and overseeing the creation and sale of newly developed residential or commercial spaces.
- Successfully handled administrative aspects, including the development and management of both web and app platforms, alongside coordinating location selection, design, construction, pricing, marketing, and sales strategy.
- Collaborated with cross-functional teams to ensure seamless integration and functionality of the admin web and app platforms.

CODEDONOR (CD)

- Developed and implemented a comprehensive course delivery system encompassing both web and app platforms, enabling seamless access for students to purchase courses and participate in live sessions.
- Leveraged programming languages and frameworks to design and build user-friendly interfaces, ensuring an intuitive browsing and learning experience for students across various devices.
- Integrated secure payment gateways and authentication mechanisms to facilitate smooth transactions and protect user data, enhancing trust and reliability in the CD system.
- Conducted thorough testing and debugging procedures to identify and resolve any issues or inefficiencies, delivering a robust and stable platform that enabled uninterrupted access to educational resources and live courses.
- Utilized Next.js to build the web platform and React Native for the mobile application, facilitating intuitive access and interaction with educational resources for users across various devices.

Non-governmental organization (NGO)

- Contributed to the development of an administrative platform for a Non-Governmental Organization (NGO), aimed at enhancing operational efficiency and resource management.
- Designed and implemented both administrative and employee panels, facilitating the creation and organization of personnel based on regional specifications.
- Empowered administrators with the ability to oversee hierarchical structures through the admin panel, while enabling streamlined communication and task allocation for employees via the dedicated panel.
- Demonstrated proficiency in web development by actively participating in the design and functionality enhancement of the platform.
- Played a pivotal role in optimizing organizational operations by prioritizing intuitive user interfaces and seamless navigation, thereby fostering enhanced productivity across the board.
